

Ideation Phase

Brainstorm & Idea Prioritization Template

Project tile: Visulaizing and Predicting heart diseases using interactive dash board.

Template

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

 10 minutes to prepare
 1 hour to collaborate
 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

 10 minutes

A

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

C

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

Visualizing and Predicting Heart Diseases With an Interactive Dash Board.

 5 minutes

PROBLEM

How might we [your problem statement]?

Key rules of brainstorming

To run a smooth and productive session

 Stay in topic.

 Encourage wild ideas.

 Defer judgment.

 Listen to others.

 Go for volume.

 If possible, be visual.

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

Sruthi

Advising daily task and medications

Providing support to patients

Creating an application that help patient and care takers.

Emergency Services Locator an option to patient to find nearby hospitals.

Revanth

Maintaining proper diet and avoiding bad habits.

Analysing and improving data related heart diseases

Improving treatment using modern technology

Risk Assessment score used to find which levels should patient decrease to be healthy.

Vishnu Priya

Using Accurate prediction algorithms

Educate patient on lifestyle changes

Innovative equipment available to many.

Ploting graphs on regions can help to find high risk areas.

Keerthi Reddy

Awareness to people about heart disease and early prediction

Feedback from patients to have good service for patients.

Maintaining perfect records and research for heart problems

Using machine learning algorithms to forecast the patient health condition prior to do treatment.

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

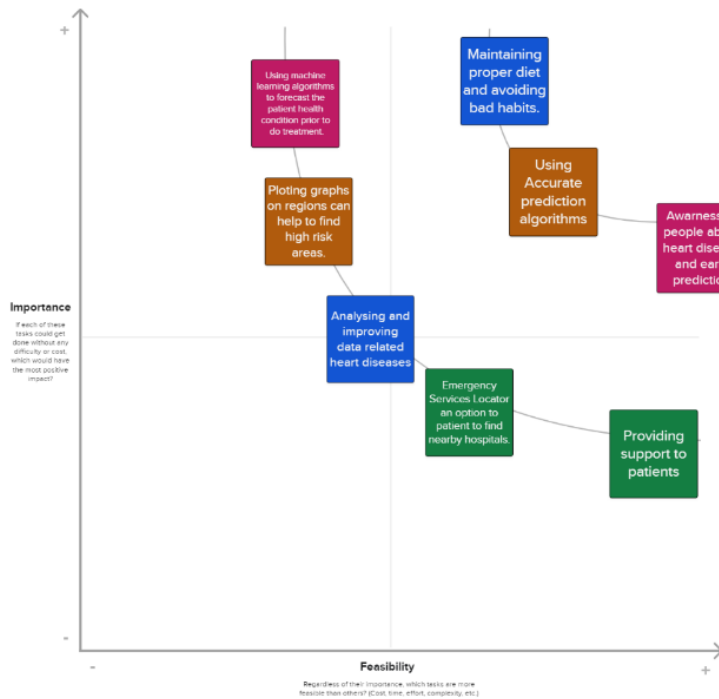

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

TIP
Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **M** key on the keyboard.

➔

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

-  **Share the mural**
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
-  **Export the mural**
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

-  **Strategy blueprint**
Define the components of a new idea or strategy.
